## D. (DELETED)

## E. Auxiliary Line Service (Inward Service)

- Under the conditions specified following, a subscriber, having two-way flat rate individual line business service in an exchange offering auxiliary line service, may contract for one or more auxiliary lines connected to the Central Office by individual circuits at the rate specified following for auxiliary lines
- The auxiliary line must terminate on the same premises as that in which the two-way service is located

Note 1: Only provisioned from LAESS and SESS switches in conjunction with the Call Transfer feature located in A127.2A

April 17, 1997

To: All TPA Payphone Provider Members

From: Scott Pospisil, Executive Director

Subject: Reduction of Southwestern Bell Payphone Line Charges

Dear Members:

Tuesday, April 15, 1997, Southwestern Bell Telephone Company's proposed tariff filing before the Texas Public Utility Commission to eliminate the 2.5¢ charge-per-call on all payphone lines and establish current business line rates for all payphone lines in the state, became effective on an interim basis. Effective April 15, 1997, you will not be charged a 2.5¢ usage fee per call on your Bell payphone lines, and your monthly line rates from Bell will be as follows. These rates are the current 1FB business line rates in Texas:

Business Rate Group	Interim Rate	Example Location
1	\$19.15	small towns
2	19.60	small towns
3	20.65	Abilene
4	22.30	Amarillo/Lubbock
5	22.00	El Paso
6	23.10	San Antonio
7	25.25	Dallas
8	28.25	Houston

All of the above rates were contained in the tariff filing Bell was required to make with the PUC earlier this year to comply with the new FCC payphone order issued last November. The FCC ordered all LECs to remove subsidies, reclassify their payphone assets to a non-regulated status, and file tariffs reflecting the new rates to be charged for payphone service.

The administrative law judge assigned to implement the FCC payphone order in Texas issued an order late Tuesday afternoon, April 15, 1997, approving the Bell tariff on an interim basis. A copy of the interim order is enclosed.

Obviously, this is a huge victory for TPA and private payphone providers across the state. However, we want to urge all members to be cautious of a few important facts concerning this matter:

Page 2

- (1) The attached order is an *interim* order — not a *final* order.
- (2) The attached order contains a condition — *the new rates are approved subject to refund or surcharge to the extent that the interim rates differ from the rates ultimately established by the Commission.*

In simpler terms, if the *final* rates are higher than the above cited *interim* rates, you will have to pay a surcharge when the final rates become effective to make up the difference in the interim.

In short, *don't spend the increased revenue until the final rates are prescribed.*

- (3) The *interim* rates cited above apply *only on Bell payphone lines*. None of the other LECs (including GTE) has proposed to reduce their payphone line rates or eliminate usage fees at this time.

Formal hearings on all LEC tariff filings (there are 50) to determine the *final* payphone rates for each LEC will commence next Friday— April 25, 1997. TPA has intervened on your behalf in all cases. To assist us in preparing for next Friday's hearing, we need some **information from you immediately!**

Enclosed is *LEC Survey Form* requesting the total number of payphone lines you operate with each of the LECs listed. It takes only 5 minutes to complete this survey. Simply tell us the number of payphone lines your company maintains with each LEC listed and fax the sheet **immediately to (512) 418-1350**. All information will remain strictly confidential. Only composite information will be used before the PUC.

We will keep you updated on our progress. Thank you.
